14 9 are not sure that the municipal Council has quite realised its financial position. It has a no of new activities in view for — increased Scavenging staff & Carts, increased expn on Water Supply and for the Town Hall and Bldgs. The Municipality may be told that the Govt are entirely in sympathy with the municipality in their desire to open a Civil Secretariat Office and that they will be glad to sanction the Contribution of the Govt. if the municipality can lay definitely how they are going to find the necessary funds. The municipality is rather vague at present about this point

16 Since writing my note yesterday, I saw the municipal Comr and spoke to him on the subject He gave me to understand that as a result of better collections than during previous years, the income of the municipality has increased by a lac of rupees & that, in fact the financial position of the municipality is so good that they have not utilised the loan of Rs 100,000 sanctioned

to them for road tarring though an Rs 50,000 worth of work has already been done He added that he did probably not require the loan at all for tarring purposes in which case he proposed to divert it for the municipal buildings.

17 As regards next year, he said proposals were under active consideration for increasing the revenues of the municipality substantially These proposals include the levy of Octroi duty on Cement, Tiles, Stone and other building material, recovery of higher rates on the consumption of electric power in the market, increase in the rate of octroi on piece goods, [illegible]

18 In view of the fact that the one lac of rupees sanctioned by Govt remains intact it is likely to remain intact and that the revenues are likely to be materially increased, the municipal Commissioner desires that the bldgs shd be sanctioned so that he can proceed with the formation of Essential Services of financial year

OFFICE OF THE SECOND MEMBER OF COUNCIL

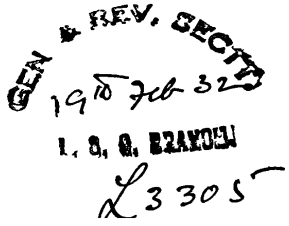
NOTE

Dated 18th February 1932



23 In connection with the construction of a Municipal office in Bangalore City, I noticed from the site plan that the Council proposed to add a portion of the District office (or Intermediate College?) compound to the premises of the Municipal office. The question will have to be separately examined. Sanction to the estimate for the Municipal office should not be understood to include sanction to appropriate Government land for the Municipal office premises.
